OBJECTIVE

Looking for a challenging remote position as a Front-end Engineer (intern) in a well-known company where I can apply and improve my skills that can contribute to the company's success. By exploring new technologies and working on real-world projects, I want to develop my technical and logical knowledge, making me an ideal candidate for web development.

SKILLS & TECHNOLOGIES

Technical Skills: React, JavaScript, TypeScript(familiar), CSS, HTML, Bootstrap, Tailwind CSS, daisyUI, Firebase authentication, JSON, RESTful APIs, Node.js, Express.js, MongoDB, Axios, JWT, Stripe payment system.

Tools & Technologies: Git, GitHub, Chrome dev tool, Figma, VSCode, Deployment Tools (Netlify, Heroku, Vercel, Railway), Discord.

APPLICATIONS DEVELOPED

Jantrik – Full-stack responsive website for Carpentry Tools Manufacturers (July - Sep 2022)

Technologies: React, Node.js, Express.js, MongoDB, Firebase authentication, Stripe, JWT, Tailwind CSS, daisyUI, Animate.css, React-hook-form, React-font-awesome, React-firebase-hooks, React-Toastify, React-Query.

Features :

- The card payment method is implemented and stored in all kinds of data at MongoDB.
- I developed an Admin portal to manage all orders and all products, add products and make an admin.
- A user portal is developed so that users can manage their profiles and orders, make payments and add a review.
- Admin credentials are in the README.md of the Client Site GitHub link.

Fitness Store – A full-stack responsive website for Gym Equipment Stocks Management (May 2022 - May 2022)

Technologies: React, Node.js, Express.js, MongoDB, Firebase, JWT, React-bootstrap, Animate.css, React-helmet-async, Recharts, React-hook-form, React-firebase-hooks, React-Toastify, Axios.

Features :

- I developed this website for updating and displaying new gym inventories.
- A User portal is implemented for managing, updating, and adding inventories.
- MongoDB is used to store all kinds of data.

Catering By Ozdemir – A front-end website for providing Independent Catering Services (Apr 2022 - Apr 2022)

Technologies: React, Firebase, React-bootstrap, Bootstrap, React-firebase-hooks, React-router-dom, React-Toastify.

Features :

- The landing page is designed to display different independent catering services.
- I have implemented Login and Sign-up features with firebase. Also, users can reset their password.
- The checkout page is protected so a user can not go to this page without Login.

EXPERIENCE

Software Developer Intern(Remote)- Nik's Consulting, Hamamatsu, Japan. (Nov 2022 – Feb 2023)

In this role, I have experience working with Javascript, React.js, Node.js, Express.js, MongoDB, Rest APIs, Git, and GitHub While meeting deadlines. I am also learning Python, Django, and WordPress basics.

COURSES

Complete Web Development Course With Jhankar Mahbub (batch-5) - **Programming Hero** (Dec 2021- Jun 2022)

The course taught me HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, and many other frameworks for developing modern web applications. The course also taught me how to solve complex problems. I had to pass 300 quizzes and 12 assignments. Afterward, I received my Junior Web Developer [certificate](#).

EDUCATION

Bachelor of Science in Botany - Govt. Bangla College, Mirpur, Dhaka, Bangladesh. (Feb 2019 – present)

LANGUAGE

- Bangla(Native)
- English(Fluent)
