## OBJECTIVE

Looking for a challenging remote job as a Jr. web developer in a well-known company to apply my skill and knowledge that can contribute to the company's progress. Besides, I can improve my technical and logical knowledge by exploring new technologies and working on real-world projects that make me a strong candidate in the web development field.

## SKILLS

**Expert :** ReactJs, JavaScript, React Router, CSS, HTML, Bootstrap, Tailwind CSS, daisyUI.  
**Comfortable :** NodeJs, ExpressJs, MongoDB, Firebase authentication, React Query, Axios, JWT, Stripe payment system.  
**Tools:** Git, Chrome dev tool, Figma, VSCode, Deployment Tools (Netlify, Heroku).

## RECENT PROJECTS

**Jantrik –** A full-stack responsive website for Carpentry Tools Manufacturers ( Jul 2022 - Sep 2022 )

**Technologies:** ReactJs, NodeJs, ExpressJs, MongoDB, Firebase authentication, Stripe, JWT, Tailwind CSS, daisyUI, Animate.css, React-hook-form, React-fontawesome, React-firebase-hooks, React-Toastify, React-Query.

**Features :**

- The card payment method is implemented and stored in all kinds of data at MongoDB.
- To manage all orders, all products, add products and make an admin I developed an Admin portal.
- A user portal is developed so that users can manage their profile, orders, make payments and add a review.
- Admin credentials are in the README.md of the Client Site GitHub link.

**Catering By Ozdemir –** A front-end website for providing Independent Catering Services ( Apr 2022 - Apr 2022 )

**Technologies:** ReactJs, Firebase, React-bootstrap, Bootstrap, React-firebase-hooks, React-router-dom, React-Toastify.

**Features :**

- The landing page is designed for displaying different independent catering services.
- Implemented Login and Sign-up features with firebase. Also, users can reset their password.
- The checkout page is protected so a user can not go to this page without Login.

## EDUCATION

**B.Sc. in Botany** ( Feb 2019 – present )

Govt. Bangla College, Mirpur, Dhaka, Bangladesh.

## COURSES

Complete Web Development Course With Jhankar Mahbub (batch-5) - **Programming Hero**

From the course, I have learned HTML, CSS, JavaScript, ReactJs, NodeJs, ExpressJs, MongoDB and many other frameworks needed for building a modern web application. I also learned how to solve complex problems. I had to face 300 quizzes and pass 12 assignments with a good score. Then I got the [certificate](#) of a Junior Web Developer from this institution.

## LANGUAGE

- Bangla (Native)
- English (Fluent)
